

IF YOUR EYES COULD TALK

WHAT WOULD THEY SAY?

We believe they can talk, but sometimes it requires more than a basic eye exam to understand what they are saying. At Acuity, we believe in taking the time to "listen" to your eyes and provide a comprehensive eye health strategy so that your world becomes clearer and brighter!

VISION THERAPY

1 in 10 children have vision problems severe enough to affect their learning in school, and standard vision screenings aren't adequate to identify them. At Acuity, we specialize in optometric vision therapy to not only diagnose these issues but provide the care and treatment needed to overcome them!

MEDICAL SERVICES

Dealing with dry or itchy eyes? It may be more than just your allergies acting up. If your eyes have not been functioning correctly lately or you have an emergency situation, we are trained to help. Don't suffer alone, we are here for you!

5 STARS! ★★★★★

"I had a great experience at Acuity Eyecare. The staff was knowledgeable and concerned about meeting my needs. They saw my concerns and took the time to evaluate my condition to determine my exact fit in frames and prescription. I would definitely recommend them to friends and family."

ACUITY
EYECARE

WE SEE YOU, AND WE CARE.

Your eyes are too important and complex to neglect or jump to conclusions in the treatment process. You deserve an eye care specialist willing to take the time to study your eyes, hear your concerns, and provide a plan that improves your life.

Every eye is unique, and the same is true for every Acuity client. We take joy in providing specialized optometric attention to everyone we serve, because that's the way it should be.

We offer contact lens exams and fittings with many lens types available!

Largest selection of
MADE IN THE USA

Meet Our Optometrist DR. KEKAHUNA

Dr. Kekahuna received her undergraduate education at Texas A&M University, then obtained her optometry degree from Berkeley. In addition to comprehensive eye care, she specializes in pediatric vision therapy, performance vision solutions, and traumatic brain injury rehabilitation.

PROFESSIONAL AND PERSONAL

"I appreciated Dr. Kekahuna's professional yet personal consultation with me on my vision and eye health. By far the best optometry evaluation I've ever had."
