

GRADUATE  
SCHOOL  
OF BIOMEDICAL SCIENCES

## Post-Baccalaureate Certificate of Completion in Biomedical Sciences and Health Equity

The Post-Baccalaureate Certificate of Completion in Biomedical Sciences and Health Equity is a one-year program aimed at enhancing, developing and enriching the academic knowledge base and skills of students prior to their entrance into medical and health professions school. Upon completion of the program, the goal is for a student to successfully matriculate into a M.D. or D.O. program or other health professions graduate degree program at an accredited U.S. institution. NO application fee! The deadline to apply is April 30!

The program provides:

- Graduate-level coursework in the biomedical sciences and health equity
- Standardized MCAT test preparation
- Research and shadowing opportunities
- Advocacy and service-learning activities
- Mentorship, coaching and networking opportunities

*“The hands-on, in-person MCAT preparation courses really helped me learn how to take the exam. My MCAT score improved and while I didn’t get any medical school interview offers after my senior year of college, I got three after completing this program. I also was able to get guidance on my CV, application and essays from people who had done it before.”*

LAWRENCE GARVIN, II
